FRANKLIN BROTHERS

ROBBINS VICTORIOUS.

Comes Out the Impeachment Pro-
ceedings Unblemished.

INCIDENT IS CLOSED.

The Hawkins Substitute Was Adopted
and Then the House Refused
to Take Any Further Ac-
tion in the Affair.

Austin, Aug. 24.—The impeachment resolution is buried beyond resurrection and State Treasurer Robbins comes out without a blemish. The proceedings came to an end rather suddenly when the house refused to take any action whatever. The majority of the house voted to substitute the Hawkins resolution for the original. The said majority turned around and voted down the resolution as substituted. The Hawkins substitute deprecated and condemned the alleged violation of law, but expressed confidence in Mr. Robbins and declared he should not be impeached. That substitute was debated all day Thursday. Friday Mr. Seabury announced during the course of his remarks that the Hawkins substitute would be withdrawn and in lieu of it another substitute would be offered, the effect of which was to condemn the practice which had been observed by the treasurer as unsafe by declaring it illegal.

Mr. Henderson of Lamar objected to this substitution, whereupon Mr. Seabury had the new substitute read as part of his remarks. The inference was that an attempt would be made to get it in as the substitute later, but no such attempt was made.

In the afternoon came the governor's message, showing that there were plans on foot to reorganize the suspended bank. Finally, late in the evening, the oratory was checked and the voting commenced. The Hawkins substitute was put up. It was substituted for the original resolution by a vote of 58 to 41.

The following is the text of the resolution introduced by Representatives Aldrich and McMeans:

"Whereas, recent events have made it manifest that the bond required under existing statutes of the state treasurer is grossly inadequate to protect the funds of the state. Therefore, be it
"Resolved, That it is the sense of the house of representatives that the law should be so amended as to require the state treasurer to enter into bond for a larger amount than that authorized by existing law and that the governor be and he is hereby requested to present this matter to the legislature for action at this session."

The session of the senate was short and without interest.

Senator Staples introduced a bill in the senate providing a tax of 2 per cent on the output of oil wells.

The governor sent a message to the senate asking confirmation of the list of commissioners appointed to select a site for the Girls' Industrial school. There is one commissioner from each congressional district.

Smuggled Cloth Seized.

Burlington, Vt., Aug. 24.—Thirty-six bales of imported cloth, making nearly a full carload, have arrived in this city from Richmond, Vt., where it was seized by Collector Olin Merrill. The cloth was shipped from Montreal to Holyoke, Mass., and is valued at about \$30,000. It is subject to nearly its full value in duties. The cloth was ingeniously packed in a car of paper stock. The center was made up of waste and the bales of cloth were placed at the ends where they were less liable to be detected. No arrests have yet been made.

Negro's Claim Against Texas.

Austin, Aug. 24.—Edmond Williams, a negro living near Hallettsville, has employed lawyers to urge a claim in his favor against the state, the claim to be presented to the legislature. Williams was convicted of the murder of a Bohemian farmer and sentenced to 99 years in the penitentiary, 13 of which he served, being pardoned by the governor because of the deathbed confession of another negro that he committed the murder for which Williams was then confined in the penitentiary.

Peace Planned Again.

New York, Aug. 24.—Charles M. Schwab, president of the United States Steel Corporation, is absent from city and it is stated will not return for a couple of days. The plan of the industrial commission and National Civic Federation to discuss peace in steel strike with him cannot therefore be carried out until he returns. No expression as to the attitude of the steel corporation to the latest move for settlement outlined from Pittsburgh was obtainable.

Yellow Jack at Tampico.

Austin, Aug. 24.—State Health Officer W. P. Blunt has been notified that one death and two cases of yellow

fever have occurred at Tampico, Mex., on the Mexican steamer Yucatan from Vera Cruz.

SOUTHERN INDUSTRIES.

They Are Forging Ahead With All Former Vigor and Force.

Baltimore, Aug. 24.—At Beaumont, Tex., is being given one of the many illustrations of the development of industries of one kind and another consequent upon the growth of some leading undertaking. The manifestations around shipbuilding at Newport News, Va., iron at Birmingham and vicinity, and furniture at High Point, N. C., are being repeated around the oil wells. Beaumont was already a great lumber center before oil was thought of there. Now mills there are increasing their equipment, and the immediate demand of building operations and oil development has called for the incorporation of a \$100,000 brick works and the establishment of a factory to make oil tanks, one of the main questions in that field being not so much the obtaining of oil, but the getting of it to market or the storage of it until satisfactory transportation may be had.

A company there, in view of immediate necessities, has determined upon the construction of an earthen reservoir for storing oil. This will have a capacity of 1,136,000 gallons, and later other reservoirs will be built until storage capacity of 6,000,000 gallons is had.

Drilling for oil still continues in the Beaumont field and other portions of Texas, while work of the same kind is being vigorously pushed in Arkansas, Mississippi, Louisiana and Alabama. In the meanwhile, the rise of other industries in the several southern states continues steadily. Among those noted in this week's issue of the Manufacturers' Record are the following:

Alabama—The factory of the Talladega Ice company has been purchased by a citizen of Atlanta, who will add new machinery so as to double the present output, and will also start in connection with the plant bottling works; a company with a capital stock of \$10,000 has been organized to erect at Birmingham an iron bedstead factory; ochre beds near Blount Springs, will be developed; flour mills will be built at Davidson and Mason.

Arkansas—A company with \$80,000 capital has begun the erection of buildings for a cotton mill at Monticello; water works and an electric light plant will be constructed at Yellville; a canning and cold storage plant will be operated at Gentry by a company with \$8000 capital; plans are making for the development of mineral lands at Austin.

Florida—A \$10,000 company has been organized for the manufacture at Jacksonville of all kinds of building material; plans are making for knitting mills at Lake City and Fort White.

Georgia—The plant of the Murphy Planing mill at Waycross will be doubled to 30,000 feet capacity; brick works of 40,000 capacity daily will be established at Fitzgerald; the purchase by the Gainesville and Dahlgren Electric Railway company of the Dunlap water power, it is said, looks to the immediate construction of a dam that will develop 5000 horsepower; the Ware Furniture Manufacturing company at Atlanta will install a plant costing \$65,000.

Kentucky—Lead properties at Midway will be developed by Richmond parties; a \$20,000 ice plant will be built at Mayfield.

Louisiana—A compressed air plant will be installed in the boiler works of Payne & Joubert at New Orleans; an effort is being made to organize a co-operative cannery at Hornbeck.

Maryland—A company with a capital stock of \$500,000 will build at Baltimore a vitrified brick plant to cost \$150,000; a macaroni factory will be operated at Baltimore by a \$100,000 company; a \$10,000 company is equipping the plant of a harness factory at Hagerstown.

North Carolina—A \$15,000 company has been organized at High Point for the manufacture of trunks; the Bonnie cotton mill of Kings Mountain, recently completed with 4300 spindles, will install 1000 more.

South Carolina—The Laurens Furniture Manufacturing company will increase its capital stock by \$15,000; Some parties will build at Gaffney at a cost of \$25,000 a factory for cotton mill supplies; the Easley cotton mills has ordered 2000 additional spindles; it is proposed to organize at Spartanburg a company to manufacture work shirts, overalls, etc.

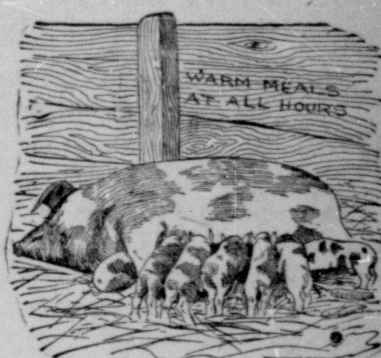

Tennessee—The Springfield Electric company will build an ice plant in connection with its light plant, the water to be taken from a deep well; a \$10,000 company has been organized to develop fuorspar mines in Trousdale, Wilson and Smith counties.

It is said to be an established fact that contagious fevers are only propagated by mosquitos.

The house of representatives refused even to pass a resolution of censure of State Treasurer Robinson.

Short crop reports have sent cotton up in a hurry. The reports being well founded, it is likely to stay up, with an occasional dip downward for a few days at a time.

Americans stopping in London are raising a rumpus about English hotels entertaining negro guests on a par with whites, without making any distinction on account of color. An English hotel man says he proposes to continue the policy just as at present. If Americans withdraw their patronage from English hotels, their action will be felt. They are very nearly running things over there now.

The threat of the steel trust to dismantle mills and ruin towns because local public sentiment is opposed to their policy is raising a big rumpus with them over the country, and people are asking what about feeding this Caesar so much meat anyway, and letting him grow so great. That threat was probably a big blunder, which may lose the trusts lots of sympathy, and help the strikers to some extent.

San Antonio, Aug. 24.—Stephen Hays, a brakeman on the International and Great Northern, while switching cars at Pearsall had his foot caught between the rails and before he could extricate it, was run down by three loose cars, all of which passed over his body, inflicting injuries from which he died in a few minutes. He resided in this city and his body was brought here for burial.

Thirteen People Bitten.

Some of the victims went to madstone at Waxahachie and it adhered for several hours to Mrs. Smith's wound. One victim is a gentleman about 80 years old. He owned the maddog, which was finally killed. Mr. Waldrup's child was bitten on the cheek and on the upper lip, which is slightly swollen.

Dead in a Bath Tub.

New York, Aug. 24.—James W. Lyall, 63 years old, a rich manufacturer of cotton goods, was found dead in a bath tub of his home in this city with the gas turned on. The theory of the family is that Mr. Lyall had been overcome by faintness and fell, striking the gas bracket in falling and so turning on the gas.

Chicago, Aug. 24.—James T. Harahan, second vice president of the Illinois Central railroad, and noted as one of the most successful railroad men in the country, has been offered the presidency of the Southern Pacific railroad, vacated by Charles M. Hays, and it is almost certain he will accept.

A chicken barbecue was given by a merry crowd of young girls and boys in the western part of the city Tuesday. They were chaperoned by Mrs. F. C. Zanetti, all had a good time returning home in the rain.

A few couples of the younger set surprised Mrs. Alice Myers Wednesday evening at the home of her parents, Mr. J. A. Myers and spent a delightful evening with music and conversation. Refreshments were served.

About 300 people, including a few from Bryan, spent Friday at Hadley Lake in Grimes county fishing. They muddled the small lake and caught an abundance of fish. To this was added a fine basket dinner provided by the ladies.

Half a dozen couples assembled without invitations at the home of Capt. and Mrs. Geo. W. Smith Tuesday evening and spent several hours very pleasantly dancing. The Smith home is always open to the young people who are indebted to the hospitable host and hostess for many pleasant evenings.

About 20 of the promising youths of Bryan from 17 to 20 years of age have formed the Kid Klub of Bryan, a social organization, the principal object of which is to get ready to entertain the boys from surrounding towns who may attend the Central Texas fair. They will use Mike's hall as a club room, and the rules provide that no gambling, drinking or disorderly conduct will be allowed. The officers are as follows: John Daly Jr., president; Roy Buchanan, vice-president; Hal Hearne, secretary; Henry Hollman, treasurer; Earnest Eittle, marshal; Terry Loughridge, deputy marshal.

A fishing party was given by the ladies of the Methodist church Friday evening from eight to eleven at the home of Mr. and Mrs. Jas. H. Webb. Fine music furnished by the Zehnal band, was enjoyed. One feature of the evening was fishing for your lunch which consisted of salad, crackers, olives, sandwiches and iced-tea. The next feature was a guessing contest in which everyone was given a card with twelve questions that had to be answered by the name of a fish. When the cards were corrected it was found Miss Alberta Adams had the most correct card, and she was awarded a handsome little globe with fish in it. The clock struck too soon, for the party were in the middle of their fun when they had to go home. Cash receipts, \$20.05.

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Billiousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

TROUBLE IS AVERTED

The Threatened Rupture Between the
Two Countries Was Avoided
by an Imperial Trade from
the Turkish Government.

Constantinople, Aug. 24.—The Quay's company question has been settled as was expected, in accordance with the desires of France. An imperial trade has been issued ordering the company be allowed to exercise freely all rights granted by concession.

Serious disturbances are reported at Mush, Armenia, but no details received.

Only Course to Pursue.

Paris, Aug. 24.—Turkey has yielded to French pressure as it was inevitable, and the full rupture of relations between the two countries has been averted. An official communique announcing the granting of the French demands was issued as follows:

"In consequence of the declaration made to the port by the French ambassador that he acts under instructions from the minister of foreign affairs an imperial trade has been issued declaring that no obstacle will be opposed to the free exercise by the Quay company of the rights resulting from their concessions."

A firman for the settlement of the matters in question, it is believed, will be issued shortly.

VALUABLE CLEW.

An Accused Tells of Others Concerned
in Fraudulent Immigration.

New York, Aug. 24.—Ernest Sapalli, the steward on the steamship LaGascogne, who was arrested on a charge of attempting to bribe Immigration Inspector Junker, has been held in \$2500 bail for the United States grand jury. Sapalli is charged with having attempted to bribe Inspector Junker to permit the landing of immigrants without their first having gone through the immigration inspection at Ellis' Island.

After the hearing Sapalli asked permission to make a statement, and in the presence of immigration officials and a representative of the United States district attorney's office he made a declaration which will result in the arrest of the principals in the case. The general belief of the government officers is that Sapalli was a dupe employed by others who got the money paid by immigrants illegally landed at this port.

DENMARK WILL SELL.

United States Will Get the Danish West
India Islands.

Copenhagen, Aug. 24.—A prominent politician in the councils of ministry, told a representative of the Associated Press that the sale of the Danish West Indies was confidentially expected to be consummated before the close of the present year.

The king and new cabinet have concluded it was absolutely necessary for Denmark to dispose of the islands, and a majority of rigsdag favor the sale as does also the public. The only dissatisfaction, the correspondent's informant further said, arises in connection with the price, \$3,750,000 being considered too small. However, the final approval of the rigsdag is believed will be assured, and it is expected legislative ratification will be given in Washington in December.

NEGROES ORDERED AWAY.

Citizens Committee of Sapulpa Notifies
Them They Must Leave Town.

Kansas City, Aug. 24.—A special from Sapulpa, I. T., says the citizens' committee has decided that all negroes, not of Creek blood, must leave Sapulpa by 3 p. m. Monday, and notices to that effect have been posted. It is said the committee is determined and will enforce the order. Negroes met in groups discussing the order and will probably resist. The committee's order is the result of an influx of negroes from other towns and two felonious assaults by disreputable negroes the last two weeks.

Tennessee Physician Killed.

Nashville, Aug. 24.—Dr. J. W. Herrod of Gallatin was shot and instantly killed by Homer Richey at Dixon Springs Friday night. The killing was the result of an assault made upon Richey, who attempted to protect the wife of Herrod from violence at the hands of the enraged husband. The coroner's jury returned a verdict of justifiable homicide and the sheriff refused to arrest Richey, who went to Carthage for the purpose of giving himself up.

Archbishop Keane Ill.

Dubuque, Ia., Aug. 24.—Late advices from Archbishop Keane are that his home-coming will be delayed a month or more. The archbishop is indisposed in Germany, and he has been advised by physicians not to come home until after the hot season.

Betting on the Shamrock.

London, Aug. 24.—It is too early for London to become enthusiastic over America's cup races, but there is a growing belief that Sir Thomas Lipton's chances are good. A commissioner representing a number of sporting clubs has sailed for New York carrying £30,000 to wager on Shamrock II.

NO CHANGE IN STRIKE.

After Six Weeks the Controversy Seems
Far from Settlement.

Pittsburg, Aug. 24.—The close of the sixth week of the steel strike finds the controversy apparently as far from a settlement as on July 13 when the joint conference of manufacturers and workers disagreed and President Shaffer made his first order calling out the employees of the sheet steel and the steel hoop companies. After 43 days both sides maintain the same firm front and contest which has been waged bitterly, with varying success and which gives promise of continuing for an indefinite period.

Friday's conference of labor leaders to devise means for bringing about a settlement was devoid of results and it rests with the conferees as individuals to seek another conference for the Amalgamated association with the United States Steel Corporation. According to a statement of the participants no mention was made of the miners or other trades taking sympathetic action. In short the meeting made no effort to extend the strike to affiliated trades.

President Shaffer reiterates his former statements that the association has several surprises in store for the manufacturers, but refused to give any information as to what they were.

In regard to the report that Chief Arthur of the Brotherhood of Locomotive Engineers had written him in reply to a letter asking what support the strikers could expect from the engineers and that Arthur had answered he could not call his men out or ask them to refuse handle non-union freight, President Shaffer positively refused to talk. All he would say was "I never wrote a letter to Mr. Arthur in my life."

At the offices of the steel company it was said the situation generally was satisfactory in all plants in the Pittsburg district.

KNIGHTS TEMPLARS.

They Are Gathering for Twenty-Eighth
Triennial Conclave at Louisville.

Louisville, Aug. 24.—A gala week for the Knights Templars of the United States began tonight, through the formal exercises of the opening of the Twenty-eighth triennial conclave of the order will not take place until Tuesday morning. Immediately after dusk the city became a veritable dreamland of dazzling brilliancy when the electric current was turned on 100 designs and decorative structures.

Marion commandery No. 24 of Lebanon, Ky., was the first commandery to arrive for the triennial conclave. It was followed by the California commandery No. 1 of San Francisco. In the afternoon numerous others arrived. Battery A, Kentucky state guards, fired salutes. The visitors were escorted to the Galt House and given a real welcome.

TO ADMIT CHINESE.

Several Officials Are Arrested at Nogales
Charged With Violating Law.

Washington, Aug. 24.—Treasury officials have unearthed what they allege is a wide conspiracy at Nogales, A. T., to admit Chinese to the United States. Thus far the collector at Nogales, William M. Hoey, and his deputy and Chinese Inspector B. F. Jossey, Frank How and another Chinaman who lives at Clifton, A. T., have been arrested. Other arrests will follow.

It is charged that Chinese in large numbers have been permitted to cross the border upon the payment to the collector of from \$50 to \$200 a piece. Hoey was appointed a year and a half ago from Indiana, where he had considerable Republican influence.

KILLING IN ARKANSAS.

An Ex-Policeman Shot by a Prominent
Doctor at Eureka Springs.

Eureka Springs, Aug. 24.—James Kizer, an ex-policeman, was shot to death Friday night by Dr. L. D. Fuller, a resident physician. While Dr. Fuller was drawing water from a fountain on Main street he was assaulted by Kizer, who felled him by a blow from behind and then using his heel Kizer mangled the face of the prostrate man in a terrible manner. The latter regained his feet and shot and killed Kizer. Dr. Fuller is perhaps fatally hurt. Dr. Fuller had refused Kizer's claim for \$2.50 for services as special policeman and Kizer had sworn revenge.

Protest Against Rate Revision.

London, Aug. 24.—An English financier, who is now in control of all the Cuban railroads, except Sir William Van Horn's 40 miles, have sent Governor General Wood a protest against the proposed revision of rates, pointing out that the new Cuban government will soon be established and probably desire to deal with the question. The Van Horn interests in constructing new railroads in Cuba have reached a full understanding with English people interested in regard to full working of the roads.

Texas' Cotton Crop Estimate.

Fort Worth, Aug. 24.—Reports to cotton oil mills of Texas from their own correspondents put the Texas cotton crop of the present year at 3,250,000 bales, or 1,000,000 less than last year. One hundred and fifty mills in Texas and Indian Territory are arranging to feed 30,000 cattle and half as many more on second feed.

Puget Sound Salmon Pack.

Seattle, Wash., Aug. 24.—It is estimated that the Puget Sound sock-eye salmon pack for the season will be 1,200,000 cases, valued at \$5,400,000.

FRANKLIN BROTHERS

ROBBINS VICTORIOUS.

Comes Out the Impeachment Pro-
ceedings Unblemished.

INCIDENT IS CLOSED.

The Hawkins Substitute Was Adopted
and Then the House Refused
to Take Any Further Ac-
tion in the Affair.

Austin, Aug. 24.—The impeachment resolution is buried beyond resurrection and State Treasurer Robbins comes out without a blemish. The proceedings came to an end rather suddenly when the house refused to take any action whatever. The majority of the house voted to substitute the Hawkins resolution for the original. The said majority turned around and voted down the resolution as substituted. The Hawkins substitute deprecated and condemned the alleged violation of law, but expressed confidence in Mr. Robbins and declared he should not be impeached. That substitute was debated all day Thursday. Friday Mr. Seabury announced during the course of his remarks that the Hawkins substitute would be withdrawn and in lieu of it another substitute would be offered, the effect of which was to condemn the practice which had been observed by the treasurer as unsafe by declaring it illegal.

Mr. Henderson of Lamar objected to this substitution, whereupon Mr. Seabury had the new substitute read as part of his remarks. The inference was that an attempt would be made to get it in as the substitute later, but no such attempt was made.

In the afternoon came the governor's message, showing that there were plans on foot to reorganize the suspended bank. Finally, late in the evening, the oratory was checked and the voting commenced. The Hawkins substitute was put up. It was substituted for the original resolution by a vote of 58 to 41.

The following is the text of the resolution introduced by Representatives Aldrich and McMeans:

"Whereas, recent events have made it manifest that the bond required under existing statutes of the state treasurer is grossly inadequate to protect the funds of the state. Therefore, be it

"Resolved, That it is the sense of the house of representatives that the law should be so amended as to require the state treasurer to enter into bond for a larger amount than that authorized by existing law and that the governor be and he is hereby requested to present this matter to the legislature for action at this session."

The session of the senate was short and without interest.

Senator Staples introduced a bill in the senate providing a tax of 2 per cent on the output of oil wells.

The governor sent a message to the senate asking confirmation of the list of commissioners appointed to select a site for the Girls' Industrial school. There is one commissioner from each congressional district.

The cloth was shipped from Montreal to Holyoke, Mass., and is valued at about \$30,000. It is subject to nearly its full value in duties. The cloth was ingeniously packed in a car of paper stock. SOUTHERN INDUSTRIES.

They Are Forging Ahead With All Former Vigor and Force.

Baltimore, Aug. 24.—At Beaumont, Tex., is being given one of the many illustrations of the development of industries of one kind and another consequent upon the growth of some leading undertaking. The manifestations around shipbuilding at Newport News, Va., iron at Birmingham and vicinity, and furniture at High Point, N. C., are being repeated around the oil wells. Beaumont was already a great lumber center before oil was thought of there. Now mills there are increasing their equipment, and the immediate demand of building operations and oil development has called for the incorporation of a \$100,000 brick works and the establishment of a factory to make oil tanks, one of the main questions in that field being not so much the obtaining of oil, but the getting of it to market or the storage of it until satisfactory transportation may be had.

A company there, in view of immediate necessities, has determined upon the construction of an earthen reservoir for storing oil. This will have a capacity of 1,136,000 gallons, and later other reservoirs will be built until storage capacity of 5,000,000 gallons is had.

Drilling for oil still continues in the Beaumont field and other portions of Texas, while work of the same kind is being vigorously pushed in Arkansas, Mississippi, Louisiana and Alabama. In the meanwhile, the rise of other industries in the several southern states continues steadily. Among those noted in this week's issue of the Manufacturers' Record are the following:

Alabama—The factory of the Talladega Ice company has been purchased by a citizen of Atlanta, who will add new machinery so as to double the present output, and will also start in connection with the plant bottling works; a company with a capital stock of \$10,000 has been organized to erect at Birmingham an iron bedstead factory; ochre beds near Blount Springs, will be developed; flour mills will be built at Davidson and Mason.

Arkansas—A company with \$30,000 capital has begun the erection of buildings for a cotton mill at Monticello; water works and an electric light plant will be constructed at Yellville; a canning and cold storage plant will be operated at Gentry by a company with \$8000 capital; plans are making for the development of mineral lands at Austin.

Florida—A \$10,000 company has been organized for the manufacture at Jacksonville of all kinds of building material; plans are making for knitting mills at Lake City and Fort White.

Georgia—The plant of the Murphy Planing mill at Waycross will be doubled to 30,000 feet capacity; brick works of 40,000 capacity daily will be established at Fitzgerald; the purchase by the Gainesville and Dahonaga Electric Railway company of the Dunlap water power, it is said, looks to the immediate construction of a dam that will develop 5000 horsepower; the Ware Furniture Manufacturing company at Atlanta will install a plant costing \$65,000.

Kentucky—Lead properties at Midway will be developed by Richmond parties; a \$20,000 ice plant will be built at Mayfield.

Louisiana—A compressed air plant will be installed in the boiler works of Payne & Joubert at New Orleans; an effort is being made to organize a co-operative cannery at Hornbeck.

Maryland—A company with a capital stock of \$500,000 will build at Baltimore a vitrified brick plant to cost \$150,000; a macaroni factory will be operated at Baltimore by a \$100,000 company; a \$10,000 company is equipping the plant of a harness factory at Hagerstown.

North Carolina—A \$15,000 company has been organized at High Point for the manufacture of trunks; the Bonnie cotton mill of Kings Mountain, recently completed with 4300 spindles, will install 1000 more.

South Carolina—The Laurens Furniture Manufacturing company will increase its capital stock by \$15,000; Some parties will build at Gaffney at a cost of \$25,000 a factory for cotton mill supplies; the Easley cotton mills has ordered 2000 additional spindles; it is proposed to organize at Spartanburg a company to manufacture work shirts, overalls, etc.

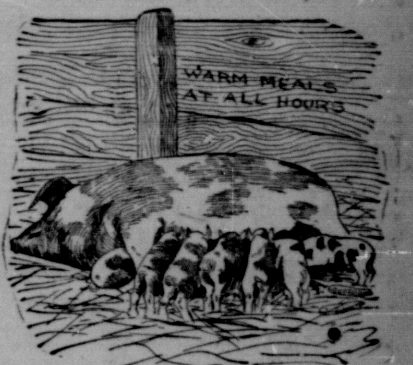

Tennessee—The Springfield Electric company will build an ice plant in connection with its light plant, the water to be taken from a deep well; a \$10,000 company has been organized to develop fluorspar mines in Trousdale, Wilson and Smith counties.

HANGINGS.

Condemned Man Collapsed.

Seattle, Wash., Aug. 24.—Charles W.
Nordstrom was hanged here Friday for
the murder of William Mason. When
Nordstrom was brought into the execu-
tion room it required the assistance of
four men to keep him on his feet. When
he was taken into the presence of the
scaffold he broke down completely cry-
ing and praying that his life be spared.
He collapsed entirely and fell to the
floor. Efforts to keep him on his feet
were fruitless and at last Sheriff Cudi-
bee ordered that a board be brought. To

Of this amount \$4,000,000 is to be paid
by Mrs. C. P. Huntington, relict of the
late Southern Pacific president and H.
E. Huntington is to pay the balance of
\$2,000,000. These facts were all con-

A chicken barbecue was given by a merry crowd of young girls and boys in the western part of the city Tuesday. They were chaperoned by Mrs. F. C. Zanetti, all had a good time returning home in the rain.

A few couples of the younger set surprised Mrs. Alice Myers Wednesday evening at the home of her parents, Mr. and Mrs. J. A. Myers and spent a delightful evening with music and conversation. Refreshments were served.

About 300 people, including a few from Bryan, spent Friday at Hadley Lake in Grimes county fishing. They muddled the small lake and caught an abundance of fish. To this was added a fine basket dinner provided by the ladies.

Half a dozen couples assembled without invitations at the home of Capt. and Mrs. Geo. W. Smith Tuesday evening and spent several hours very pleasantly dancing. The Smith home is always open to the young people who are indebted to the hospitable host and hostess for many pleasant evenings.

About 20 of the promising youths of Bryan from 17 to 20 years of age have formed the Kid Klub of Bryan, a social organization, the principal object of which is to get ready to entertain the boys from surrounding towns who may attend the Central Texas fair. They will use Mike's hall as a club room, and the rules provide that no gambling, drinking or disorderly conduct will be allowed. The officers are as follows: John Daly Jr., president; Roy Buchanan, vice-president; Hal Hearne, secretary; Henry Hollman, treasurer; Earnest Ertle, marshal; Terry Loughridge, deputy marshal.

A fishing party was given by the ladies of the Methodist church Friday evening from eight to eleven at the home of Mr. and Mrs. Jas. H. Webb. Fine music furnished by the Zehnal band, was enjoyed. One feature of the evening was fishing for your lunch which consisted of salad, crackers, olives, sandwiches and iced-tea. The next feature was a guessing contest in which everyone was given a card with twelve questions that had to be answered by the name of a fish. When the cards were corrected it was found Miss Alberta Adams had the most correct card, and she was awarded a handsome little globe with fish in it. The clock struck too soon for the party were in the middle of their fun when they had to go home. Cash receipts, \$20.05.

Those who are here are Mother Mary Joseph, superior; Mother St. Augustine, assistant superior; Madam Mary Patrick, directress of the parochial school, which opens Sep. 3; Madam M. Berchmans, directress of Villa Marie academy; Madam Mary de Sales, Madam Mary Clare, Madam Mary Teresa, teachers; Sister Mary Anthony and Sister St. Monica.

QUESTION ANSWERED.

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers' and grandmothers' never thought of using anything else for Indigestion or Billiousness. Doctors were scarce, and they seldom heard of Appendixitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Get Green's Prize Almanac. For sale by Wilson-Jenkins Drug Co.

Grants to France All the Demands Made by Her.

TROUBLE IS AVERTED

The Threatened Rupture Between the Two Countries Was Avoided by an Imperial Irade from the Turkish Government.

Constantinople, Aug. 24.—The Quay's company question has been settled as was expected, in accordance with the desires of France. An imperial irade has been issued ordering the company be allowed to exercise freely all rights granted by concession.

Serious disturbances are reported at Mush, Armenia, but no details received.

Only Course to Pursue.

Paris, Aug. 24.—Turkey has yielded to French pressure as it was inevitable, and the full rupture of relations between the two countries has been averted. An official communique announcing the granting of the French demands was issued as follows:

"In consequence of the declaration made to the Porte by the French ambassador that he acts under instructions from the minister of foreign affairs an imperial irade has been issued declaring that no obstacle will be opposed to the free exercise by the Quay company of the rights resulting from their concessions."

A firman for the settlement of the matters in question, it is believed, will be issued shortly.

VALUABLE CLEW.

An Accused Tell of Others Concerned in Fraudulent Immigration.

New York, Aug. 24.—Ernest Sapalli, the steward on the steamship LaGasconne, who was arrested on a charge of attempting to bribe Immigration Inspector Junker, has been held in \$2500 bail for the United States grand jury. Sapalli is charged with having attempted to bribe Inspector Junker to permit the landing of immigrants without their first having gone through the immigration inspection at Ellis' Island.

After the hearing Sapalli asked permission to make a statement, and in the presence of immigration officials and a representative of the United States district attorney's office he made a declaration which will result in the arrest of the principals in the case. The general belief of the government officers is that Sapalli was a dupe employed by others who got the money paid by immigrants illegally landed at this port.

DENMARK WILL SELL.

United States Will Get the Danish West India Islands.

Copenhagen, Aug. 24.—A prominent politician in the councils of ministry, told a representative of the Associated Press that the sale of the Danish West Indies was confidentially expected to be consummated before the close of the present year.

The king and new cabinet have concluded it was absolutely necessary for Denmark to dispose of the islands, and a majority of rigsdag favor the sale as does also the public. The only dissatisfaction, the correspondent's informant further said, arises in connection with the price, \$3,750,000 being considered too small. However, the final approval of the rigsdag it is believed will be assured, and it is expected legislative ratification will be given in Washington in December.

NEGROES ORDERED AWAY.

Citizens Committee of Sapulpa Notifies Them They Must Leave Town.

Kansas City, Aug. 24.—A special from Sapulpa, I. T., says the citizens' committee has decided that all negroes, not of Creek blood, must leave Sapulpa by 3 p. m. Monday, and notices to that effect have been posted. It is said the committee is determined and will enforce the order. Negroes met in groups discussing the order and will probably resist. The committee's order is the result of an influx of negroes from other towns and two felonious assaults by disreputable negroes the last two weeks.

Tennessee Physician Killed.

Nashville, Aug. 24.—Dr. J. W. Herrod of Gallatin was shot and instantly killed by Homer Richey at Dixon Springs Friday night. The killing was the result of an assault made upon Richey, who attempted to protect the wife of Herrod from violence at the hands of the enraged husband. The coroner's jury returned a verdict of justifiable homicide and the sheriff refused to arrest Richey, who went to Carthage for the purpose of giving himself up.

Archbishop Keane Ill.

Dubuque, Ia., Aug. 24.—Late advices from Archbishop Keane are that his home-coming will be delayed a month or more. The archbishop is indisposed in Germany, and he has been advised by physicians not to come home until after the hot season.

Betting on the Shamrock.

London, Aug. 24.—It is too early for London to become enthusiastic over America's cup races, but there is a growing belief that Sir Thomas Lipton's chances are good. A commissioner representing a number of sporting clubs has sailed for New York carrying £30,000 to wager on Shamrock II.

NO CHANGE IN STRIKE.

After Six Weeks the Controversy Seems Far from Settlement.

Pittsburg, Aug. 24.—The close of the sixth week of the steel strike finds the controversy apparently as far from a settlement as on July 13 when the joint conference of manufacturers and workers disagreed and President Shaffer made his first order calling out the employees of the sheet steel and the steel hoop companies. After 43 days both sides maintain the same firm front and contest which has been waged bitterly, with varying success and which gives promise of continuing for an indefinite period.

Friday's conference of labor leaders to devise means for bringing about a settlement was devoid of results and it rests with the conferees as individuals to seek another conference for the Amalgamated association with the United States Steel Corporation. According to a statement of the participants no mention was made of the miners or other trades taking sympathetic action. In short the meeting made no effort to extend the strike to affiliated trades.

President Shaffer reiterates his former statements that the association has several surprises in store for the manufacturers, but refused to give any information as to what they were.

In regard to the report that Chief Arthur of the Brotherhood of Locomotive Engineers had written him in reply to a letter asking what support the strikers could expect from the engineers and that Arthur had answered he could not call his men out or ask them to refuse handle non-union freight, President Shaffer positively refused to talk. All he would say was "I never wrote a letter to Mr. Arthur in my life."

At the offices of the steel company it was said the situation generally was satisfactory in all plants in the Pittsburg district.

KNIGHTS TEMPLARS.

They Are Gathering for Twenty-Eighth Triennial Conclave at Louisville.

Louisville, Aug. 24.—A gala week for the Knights Templars of the United States began tonight, through the formal exercises of the opening of the Twenty-eighth triennial conclave of the order will not take place until Tuesday morning. Immediately after dusk the city became a veritable dreamland of dazzling brilliancy when the electric current was turned on 100 designs and decorative structures.

Marion commandery No. 24 of Lebanon, Ky., was the first commandery to arrive for the triennial conclave. It was followed by the California commandery No. 1 of San Francisco. In the afternoon numerous others arrived. Battery A, Kentucky state guards, fired salutes. The visitors were escorted to the Galt House and given a real welcome.

TO ADMIT CHINESE.

Several Officials Are Arrested at Nogales Charged With Violating Law.

Washington, Aug. 24.—Treasury officials have unearthed what they allege is a wide conspiracy at Nogales, A. T., to admit Chinese to the United States. Thus far the collector at Nogales, William M. Hoey, and his deputy and Chinese Inspector B. F. Jossey, Frank How and another Chinaman who lives at Clifton, A. T., have been arrested. Other arrests will follow.

It is charged that Chinese in large numbers have been permitted to cross the border upon the payment to the collector of from \$50 to \$200 a piece. Hoey was appointed a year and a half ago from Indiana, where he had considerable Republican influence.

KILLING IN ARKANSAS.

An Ex-Policeman Shot by a Prominent Doctor at Eureka Springs.

Eureka Springs, Aug. 24.—James Kizer, an ex-policeman, was shot to death Friday night by Dr. L. D. Fuller, a resident physician. While Dr. Fuller was drawing water from a fountain on Main street he was assaulted by Kizer, who felled him by a blow from behind and then using his heel Kizer mangled the face of the prostrate man in a terrible manner. The latter regained his feet and shot and killed Kizer. Dr. Fuller is perhaps fatally hurt. Dr. Fuller had refused Kizer's claim for \$2.50 for services as special policeman and Kizer had sworn revenge.

Protest Against Rate Revision.

London, Aug. 24.—An English financier, who is now in control of all the Cuban railroads, except Sir William Van Horn's 40 miles, have sent Governor General Wood a protest against the proposed revision of rates, pointing out that the new Cuban government will soon be established and probably desire to deal with the question. The Van Horn interests in constructing new railroads in Cuba have reached a full understanding with English people interested in regard to full working of the roads.

Texas' Cotton Crop Estimate.

Fort Worth, Aug. 24.—Reports to cotton oil mills of Texas from their own correspondents put the Texas cotton crop of the present year at 3,250,000 bales, or 1,000,000 less than last year. One hundred and fifty mills in Texas and Indian Territory are arranging to feed 30,000 cattle and half as many more on second feed.

Puget Sound Salmon Pack.

Seattle, Wash., Aug. 24.—It is estimated that the Puget Sound sock-eye salmon pack for the season will be 1,200,000 cases, valued at \$5,400,000.
